CUSTOM COLLECTION SOLUTIONS.

We provide collection containers free of charge. All containers are made of carbon steel and all VATs are made right here in North America.

650 Litre Vats

1300 Litre Vats

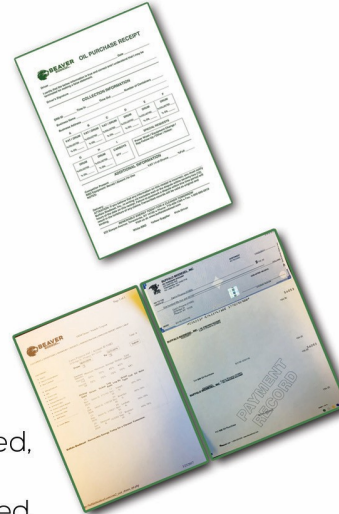

Or: We can pump directly from your tank.

TRANSPARENT OIL COLLECTIONS AND PAYMENTS.

Unlike most of our competitors we provide receipts at every pickup.

And, unlike most of our competitors, we provide detailed payment records showing who collected, when they collected and what we collected.

Unlike many of our competitors, payments are guaranteed for the life of the contract.

WHY CHOOSE OUR SMART UCO COLLECTION CONTAINER?

1. Use our secure app to monitor your oil cycle, avoid overflows, and prevent theft.
2. Ensure Correct Payments: Verify that you are receiving accurate payments for your used cooking oil (UCO) with transparent records.
3. Automated Pickups: UCO pickups scheduled automatically, eliminating the need to call for pickups.
4. Monitor Multiple Location: Easily oversee UCO management across multiple restaurant locations from a single platform.

We are a team! We work and play together, which is why we treat our suppliers with **Care** and **Respect**.

CLEAR CONTRACTS, CLEAR PAYMENTS AND CLEAR SERVICE.

BBD has guaranteed contracts. We don't bait and switch. The entire agreement is on one piece of paper.

We issue receipts, and send payment statements covering all of your collections in detail.

Our service obligations are clear. We only do one thing, and that's collect and process Used Cooking Oil. We don't outsource anything. We run our own trucks and handle all of the back end and processing. That's why we believe we are the best in the Industry.

If we don't collect, we can't get paid!
